

EXCEL TRAINING

Optimize your usage of Microsoft Excel and improve your output at work.

Most credit professionals interact daily with Microsoft Excel. Much of the interaction is self-taught. Bouncing back and forth between Excel and Google becomes tiresome when you can't remember the exact formula, function, or shortcut. Learn from an experienced instructor who will demonstrate using the spreadsheets that credit professionals use every day at work.

- Basic Functions
- VLOOKUP
- Pivot Tables
- Member Suggestions
