Transitioning to Order-to-Cash Professionals with Kevin Chandler (Hicks Law Group)

The primary goal of any for-profit business is to generate cash. We are uniquely positioned to help our employers focus on cash. We are too often narrowly focused, resulting in: perceptions that we are “transactional,” not strategic, do not see the “big picture,” or add limited value. Credit professionals miss out on opportunities to help on processes impacting cash generation; and, often do not get a “seat at the senior leadership table.” As a result, we do not get the recognition, respect and rewards that a broadened scope would bring to our careers. This session sheds light on how to reposition ourselves as order-to-cash subject matter experts (SMEs) versus credit and collection professionals.
